G. T. CLINE'S BIG ESTATE

MILLIONS OF DOLLARS' WORTH OF PROPERTY LEFT BY THE COLONEL.

An Eccentric Chicagoan Who Owned Large Tracts of Land in Indiana and Other States.

CHICAGO, Aug. 1.-Three million dollars' worth of property has already been unearthed by Executor Edwin A. Warfield as belonging to the estate of Col. George T. Cline, an eccentric Chicagoan who died on July 7, and whose will has recently been admitted to probate. Until the examination of Colonel Cline's thousands of letters and papers is complete it will not be known how much the estate is worth, but it is said it is possible it will approximate \$6,000,000. Colonel Cline, who was eighty years old at his death, and whose title comes from the fact that he was a civil war veteran, was a real estate operator and almost his whole fortune was in land. Executor Warfield has already found that he holds property in Illinois, Indiana, Wisconsin, Iowa, Missouri, New York, Virginia and Maryland. It is principally in large tracts with much farming acreage. One extensive piece of property belonging to the estate is at Clark Junction. Ind., near Edgmoor. This consists of 2,500

Colonel Cline left his entire estate to his relatives in California and Maryland. Onefourth goes to his sister, Mrs. Mary Yeakie, and one-quarter to his brother, Nicholas O. Cline, both of Frederick, Md., and both are seventy years old. Another quarter is left to a nephew, Isaac T. Crum, of Oakland, Cal. and the remaining quarter he gave to two other nephews, John Cline and George T. Cline, Los Angeles, collector of the port and deputy collector, respectively. Despite Colonel Cline's wealth he was known to few persons in Chicago. As his old friends died ne failed to make new ones, and in recent years he lived alone in a single room at a big world's fair hotel building, which he purchased after the close of the fair.

Asked to Pass on the Question as Soon as Possible.

ST. PAUL, Minn., Aug. 1 .- Judge Lochren to-day in the United States Circuit Court handed down his decision in the case of the State of Minnesota against the Northern Securities Company, the Great Northern Railway Company, the Northern Pacific Railway Company and James J. Hill, as president of the Northern Securities Company and individually, in which he sustained the contentions of the defendants and dismissed the bill of complaint of the State. He finds that the Northern Securities Company has not violated the State laws forbidding the consolidation of parallel and competing lines of railway, through its ownership of the stock of the Great He refuses the injunction asked by the State of Minnesota to restrain the Se- against this company. The federal suit in which the Securities Company was beaten was prosecution for violation of the Sherman anti-trust law passed by the federal Congress. The State suit in which the Securities Company wins was based on an allegation that the defendants violated acts of the Minnesota Legislature forbidding the consolidation of parallel and competing lines of railway.

JUDGE LOCHREN'S RULING. Judge Lochren, in his decision to-day,

"The defendant, the Great Northern Railway Company, is a Minnesota corporation, which has, as stated in the bill, acquired the property, rights and franchises and the management and control of various speci-fied railway corporations. That the defendant, Northern Pacific Company, is a Wis-consin corporation which filed its articles of incorporation in Minnesota and in 1896 purchased and acquired all the railroad properties, railway fines, right of way, rolling stock and franchises of the earlier Northern Pacific Railway Company; and he also stated in the bill acquired the property rights and franchises, and the management and control of other specified railway corporations. That said Great Northern and Northern Pacific Companies now and for many years, severally own, operate and maintain a main line of railway extending from the cities of Duluth, St. Paul and Minneapolis, westward, across the State of and Washington to Puget sound; many branches along the route of each, and said two systems of railroads are as to each other parallel and competing lines of railroad; at least between ciries and towns reached or traversed by the lines of both of said two railways, among which

has existed in the past years.' After reciting the act passed by the Leg-islature of 1874 forbidding the consolidating of parallel railroads, also the act of 1881 permitting one railroad company to constock of any other roads which might be connected and operated together to constitute a continuous main line with or without branches; and calling attention to the fact that the same statute reiterated the prohibition against consolidating parallel and competing lines, Judge Lochren calls attention to the passage of the anti-trust law passed by the State Legislature in 1899, forbidding combinations in restraint of trade or commerce between the State of

Minnesota and other States and its penal-

ties and then gives a complete history of

Neither the Great Northern Company nor Northern Pacific Company were either parties to, nor in their corporate capacities had anything to do in, the formation of the Northern Securities Company or with any of the contracts or proceedings complained of in the bill. The Northern Securities Company is merely an investor in and owner of a majority of the stock of each of these two railroad companies. It has done no act and made no contract in restraint of trade or commerce. The action of the Defendant Hill in promoting the formation of the Northern Securities Company under the circumstances and for the purposes which the evidence discloses, and investing in its stocks by the sale to it of his stock in the two railroad companies involved no act or contract in restraint of trade or commerce, or affecting transportation or rates more than any ordinary transfer of railroad stock from one person to an-

LAW NOT VIOLATED.

"My judgment after most careful consideration of the facts and the law applicable thereto, as construed by the highest court leads me to the conclusion that some of the defendants have violated the Minnesota anti-trust act, a conclusion apparently contrary to that reached by the eminent judges who, in this court, recently, decided the case of the United States vs. Northen Securities Company, and who will doubtless Lieut. It simply means that the case will have to be finally decided by the court of last resort. The State will immediately appeal and every effort be made by its attorney general and his able associates to protect the interests of the people. The fight is going to continue until our laws are vindicated and upheld; until it is conclusively shown that by indirection results cannot be accomplished which our laws were intended to prevent; that the creations of another State cannot be used to accomplish here that which is against the declared policy of this State; that competition shall not be smothered; that it shall be open, active and potential; that dummies shall not be directors, officers and agents to so operate the railroads of Minnesota that our laws shall be nullified and rendered ineffective. "stocking" room in the National Bank of Commerce is for the exclusive use of women, of whom the bank has 4,000 as customers. It is one of a suite of four devoted to their uses, the others being a reception room, a writing room and a lavatory, the last being sound proof, walled in white marble and wholly a gem. But these rooms, though fitted up in mahogany and panels of brocaded satin, are secondary to the "stecking" room, to which they are merely adjuncts after all. In a word, the "stocking" room is the apartment into which women go to take

the money they wish to deposit in the bank from their stockings. Now, it is a jest and a byword among men that woman carries her fortune in her hose, but not many of them believe that this is true. Experience taught the bank officials that it was the case, for many and oft was the query made: Where can we go to take out our money?" Hence, when the bank was enlarged recently, a room was provided just for this purpose. It is extremely private, and is equipped with chairs and with little foot rests about the wall at convenient height. so that a woman may put her foot on a rest and secure the funds wherewith to make her deposit. Although not finished as yet, the room has already proved its right to be, and is in constant use. DR. JOHN'S ADDRESS.

#### An Interesting Sermon Delivered at Acton Park.

Inhabitants of Acton Park forgot the worldly pleasures of life yesterday and the Methodist camp grounds took on an atmosphere of spirituality. The meetings in the tabernacle were all well attended, the largest audiences at any day service this season being present. The services were exceedingly enjoyable. In the afternoon Dr. J. P. D. John, who is prominent as an educator, John has a pleasing delivery and his talk was thoroughly appreciated.\
Dr. John said in part: "The agnostic says 'an honest God is the noblest work of man; which is the maker, God or man? There is, of course, a sense in which every man

ideal of God is there no substance corresponding more or less correctly with his ideal? If man made God, what is the promise of the future? A meeting for the children under the direction of Mrs. Ida A. Porterfield was held at 9:45 and an hour later Dr. Wilbur F. Sheridan spoke on "Christ and the Social Impulse." A meeting for young people was held at 6:30, led by the Rev. T. K. Willis, and in the evening Mrs. Lulu Tyler Gates pleased a large audience in the tabernacle with a miscellaneous programme in which were a number of humorous numbers that

were well received. One of the features of the day was a realestate transfer made through Dr. J. W. Dashfel, president of the Action Park Association. Mr. E. H. Rogers, of Hope, sold his cottage, No. 85, to E. M. Freeman, of Lizton, for \$300 cash. The cottage is probably the best on the grounds and cost originally over \$600. Mr. Freeman and family

will take possession immediately.
